# Aries Web Minimum Requirements

What are the minimum system requirements to use the Aries Web Portal?

1. Operating System:
   a. Windows XP or Windows Vista
   b. Older Microsoft Operating Systems may work, but are not officially supported
2. Internet Browser[1]:
   a. Internet Explorer 7
   b. Internet Explorer 8
3. Java Runtime Environment:
   a. Sun Microsystems Java Version 1.6.0 or Greater[2]
4. viewONE Java Document Viewer
   a. You will be prompted to install this upon opening your first report on Aries. When the Java windows prompts you to install, please select "Always Trust Content From This Publisher" and click "Run"

[1] Pop-up blockers must be disabled prior to using the website.

How to disable pop-up blocker in Internet Explorer 8
1. Launch Internet Explorer
2. Select Tools
3. Select Pop-Up Blocker
4. Click Turn Off Pop-up Blocker

[2] To determine which version of the Java Runtime Environment you are using, visit http://www.javatester.org/version.html. If Java is installed, you will see a pink box under "The version and vendor from the JRE" that states the version number. If you do not see the pink box, Java may not be installed. Visit http://www.java.com/en/download/manual.jsp to download the latest version of the Java Runtime Environment for your pc.
